Audit Scope & Limitations

WHAT WAS TESTED:

- ✓ Functional UI interactions
- ✓ Navigation & link traversal
- ✓ Form discovery
- ✓ Console error capture
- ✓ Network API monitoring
- ✓ DOM element extraction
- ✓ Accessibility ARIA capture

COVERAGE GAPS / LIMITATIONS:

- ! Performance metrics (FCP, LCP, CLS) -- Not measured this run
- ! Full WCAG accessibility audit -- Not executed this run
- ! Security header & vulnerability scanning -- Not executed this run

3. QUALITY SCORE DASHBOARD

Scores are derived exclusively from actual execution data. N/A means the dimension was not measured this run and is excluded from the composite score. An overall score is only computed from dimensions that were actually measured.

Functional Testing (40%)		100/100
Performance Speed (25%)	N/A -- Not measured this run	
Accessibility (20%)	N/A -- Not measured this run	
Security Posture (15%)	N/A -- Not measured this run

8. PERFORMANCE OBSERVATIONS

Page Performance Metrics

Page Load Time	Not measured
DOM Content Loaded	Not measured
First Contentful Paint (FCP)	Not measured
Largest Contentful Paint (LCP)	Not measured
Cumulative Layout Shift (CLS)	Not measured
Total Network Requests	3
Failed Requests (4xx/5xx)	0
Performance Score	Not measured -- No timing data collected

9. SECURITY OBSERVATIONS

Security Posture Audit

HTTPS Enforced	v Yes
----------------	-------

SSL / TLS Certificate	Not verified
Mixed Content Detected	✓ None detected
CSP / X-Frame Violations	✓ None detected
Exposed Sensitive Data	✓ None detected (not deep-scanned)
Security Score	Not measured -- Security test suite not executed

A dedicated security scan was not executed this run. Engage a security-specific test suite for an OWASP-aligned assessment.

11. FINAL AUDIT VERDICT

LIMITED AUDIT

Excellent

Verdict by Dimension

Functional Testing	PASS (3/3)
Performance	NOT VERIFIED
Accessibility	NOT VERIFIED
Security	PARTIALLY VERIFIED

Overall Score	100/100
Confidence	LOW
Not Verified	Performance, Accessibility, Security -- excluded from score

NOTE: This report does not constitute a complete website certification. The following dimensions were NOT measured this run: Performance, Accessibility, Security. Run a full audit suite including performance timing, WCAG evaluation, and security scanning to produce a fully-certified quality report.
